## PREFACE

As this 1955 JAPAN CHRISTIAN YEARBOOK goes to press the thing which impresses one most about the Japanese Christian enterprise is that there is a growing mutual appreciation of the work done by native Japanese churchmen and missionaries from abroad. The Holy Spirit achieves this fellowship in Christ and the effects are broad and deep. On every hand the air is full of expressed desires for fuller cooperation. Witnessing for Christ in Japan, as in many other countries today, soon brings a conviction that all the concerted effort possible by those who call themselves Christian is not enough. Increasingly an inward judgmental pressure urges us toward the center of our Christian life, and as we draw nearer to our Lord, Jesus the Christ, we find ourselves nearer to each other. Many are the missionaries who have found their own faith nurtured by daily association with Japanese Christians and missionaries of other traditions. New life is springing from these encounters. New life, and a contagion—a contagion of love and unity. Should we discover that this infectious power is the true life of Christ's Church, we can only confess humbly that it is God's act by the working of His Holy Spirit.

You will notice that the contents of this book are different from previous years. At the conference of the

Fellowship of Christian Missionaries, held at Lake Nojiri during the latter part of July 1954, action was taken to shorten the survey articles in the YEARBOOK. At the sametime, the editorial staff of this volume was urged to make the directories even more useful to the missionaries of this land. This we have tried to do.

Pitfalls lay before us all the way. Statistics in Japan are precarious. Sometimes differences in cultural values upset any scale of probability. At other times, figures from sources which are reasonably self-consistent nevertheless stand in serious contrast when compared to each other. No method of weighing relative reliability is known to us.

We are aware of discrepancies that appear in our statistics. We have attempted to measure these and allow for their full importance; but, even after doing our best, difficulties remain. Rather than attempt to camouflage them, we simply ask your forbearance and—wherever possible—a greater degree of personal cooperation in subsequent years.

Allow me to add at this point that the compilers of this book are not “ithmatical” fiends. Their souls do not delight in statistics and they know better than any others how imperfectly the fruits of their labors portray the work for Christ in Japan. Without exception, they are people who have added this to already full schedules because their fellow missionaries pressed upon them this task. They have discharged their heavy responsibilities well.

No editor should fail to attribute to his staff his thanks for the hours of selfless effort spent in producing a work such as this. But when the occasion arises that an editor must leave such a project before it is actually finished, he must surely mention his gratitude for such capable and faithful co-workers. Mr. John Skillman, of Aoyama Gakuin University, has seen this work to its completion. All hail to him and to the others of the editorial and publishing staff.

A last word of gratitude to Dr. Paul Mayer. Already taxed with too many responsibilities, he nevertheless consented to bring to us in our one survey article his insights derived from many, many years as a missionary in this land. All of us stand in his debt. May this volume convey to millions a wide understanding of what is being done for Japan in the name of the Savior.

The Editor.

**SECTION I**  
**SIGNIFICANT DEVELOPMENTS IN**  
**THE CHRISTIAN MOVEMENT**  
**IN JAPAN**

By PAUL S. MAYER

The purpose of the following article is to call attention to some of the significant events that have transpired in the Christian movement in Japan. There has been no attempt to follow a straight chronological line. No doubt some important items have been overlooked. Another writing on the same theme would perhaps follow a different emphasis. This review is not necessarily limited to the period of last year. Rather an attempt has been made, while recording some of the events that have occurred recently, to point out at the same time certain trends which have been in evidence since the end of the war, when in a general way an old era closed and a new era began.

**EIGHTH GENERAL ASSEMBLY**  
**OF THE KYODAN**

The Eighth General Assembly of the Kyodan was held in the Fujimi-cho Church, Tokyo, October 26-28, 1955. The number of delegates in attendance was 400, equally divided between ministers and laymen. This

Eighth General Assembly was marked by a number of important actions and decisions. First, to be noted was a complete change in leadership. When the Kyodan was organized in 1941, the Moderator elected was Rev. Mitsuru Tomita of the former Presbyterian church. Rev. Tomita served in this capacity during the period of the war until 1946. At the special General Assembly called that year, Dr. Michio Kozaki, a former Congregational pastor, was chosen as Moderator. At the 1954 meeting of the General Assembly Rev. Ken Muto was elected. Rev. Muto is of Methodist background, former president of Kassui Girls' School and pastor of Central Tabernacle, Tokyo. The Vice-moderator, Rev. Gosaku Okada, comes from the former United Brethren Church. He is a pastor of one of Tokyo's largest churches and professor in the Japan Biblical Seminary. The recording secretary is Rev. Takihito Yamakita, a former Baptist. The position of General Secretary of the Kyodan is ably filled by Rev. Iwao Niwa, former Congregationalist.

A second noteworthy fact of this Assembly was the greater place given to laymen. Heretofore the powerful Executive Committee which functions between the meetings of the Assembly consisted of eight ministers and nine laymen. The 1955 Assembly changed this, so that the Executive Committee now consists of fourteen ministers and thirteen laymen. The caliber of these lay representatives is clearly indicated by the following facts. One of the thirteen is a woman, a leader in woman's work; one was formerly an admiral in the

Japanese navy; four are members of the Diet, one having served at one time as Minister of Finance in the Japanese Government; three have held prominent positions in the educational field and four in the business world.

Thirdly, the Kyodan after a number of years of careful study and considerable discussion finally at this session approved a Confession of Faith. This Confession of Faith appeared on page 101 of last year's Yearbook, but it was not definitely approved until the 1954 session of the General Assembly. Fourthly, this General Assembly adopted a resolution which called for the organization of the Sogodendo Inkwai or a kind of Home Missionary Society. This new organization is the evangelistic arm of the Kyodan. All phases of evangelistic work come under its general supervision.

This Eighth General Assembly, without a doubt, was a highwater mark in the history of the Kyodan. Formed on June 24th, 1941, under the compulsion of the immediate prewar crisis, thirty three different denominations cooperating, the Kyodan in its brief history has faced a number of serious situations which threatened its unity. A number of denominations, such as the Anglican, the Lutheran, the Southern Baptist and the Salvation Army have withdrawn. A part of the Presbyterian-Reformed group also withdrew. In each of the previous Assemblies there was a certain amount of tension. The Eighth Assembly was entirely free from such tension. The entire session, character-

ized by vigorous discussion, manifested a remarkable spirit of unity. The Kyodan has found itself.

### FIFTEEN CHRISTIANS IN JAPANESE PARLIAMENT

In the general election held in February, 1955, fifteen Christians were elected to seats in the Lower House. There are 467 members in the Japanese Diet. Christians form only 0.5 per cent of the total population, but their representation in the Diet is 3.2 per cent. Ten of the newly elected members belong to the Kyodan. They are Kei Hoashi, Mrs. Satoko Togano, Shutaro Matsuura, Jiro Hoshijima, Yoshio Suzuki, Motojiro Sugiyama, Jotaro Kawakami, Tomomatsu Hasegawa, Toshihisa Yamamoto and Tokutaro Kitamura. The other five are former Premier Tetsu Katayama, a Presbyterian; Dr. Jinkichi Shirama, a Roman Catholic President Shigeyoshi Matsumae, an Evangelical Lutheran; Kozo Inomata, an Anglican, and former speaker of the Lower House, Komakichi Matsuoka, a Baptist. Mr. Jotaro Kawakami is the chairman of the Right-Wing Socialist Party. Mr. Tokutaro Kitamura was a Minister of Finance in a former Cabinet. Mr. Motojiro Sugiyama, intimate friend and co-worker of Dr. Kagawa, has been elected vice-chairman of the Lower House.

### TRAGEDY

Among Protestant missionaries in Japan since the beginning of their work in 1859 there has been no one who has met the fate of a martyr. However in the

course of nearly one hundred years, tragedy in the form of sudden death has struck again and again. Volcano, earthquake, river, sea, accident and robbers have taken their toll from among the missionary group. The first of such tragedies occurred in 1870 when Mr. and Mrs. Cornes and their little son were killed in the explosion of the boiler of the boat on which they were going from Tokyo to Yokohama.

The latest of such tragedies took place on September 26th, 1954, when the *Toya Maru*, the ferry plying between Honshu and Hokkaido, capsized in the harbor of Hakodate, carrying 1,129 people to a watery grave. Three missionaries were on board the ill fated vessel. Mr. Don Orth was saved fortunately, but Mr. Dean Leeper of the YMCA and Rev. A. R. Stone lost their lives. Mr. Leeper who was engaged in student work with the Y was in his second term of service, having just previous to the tragedy returned to Japan from furlough. Mr. Stone was a missionary of the United Church of Canada. He first came to Japan in 1926. At the close of the war he resumed his work as a missionary. Due largely to his untiring efforts the Kyodan caught a new vision of the importance of rural work. The Training School for Rural Workers at Hino near Tokyo owes its establishment largely to Mr. Stone. He served as the secretary of the Cooperative Evangelism Committee. He resigned this position to take up pioneer evangelism in Hokkaido. He was on his way to attend the conference on evangelism at Kutsukake when his untimely death took place. Two very

widely attended funeral services took place in Tokyo. Mr. Stone was posthumously decorated with the fifth order.

### VETERAN MISSIONARIES DEPART

In January 1955, Dr. and Mrs. Wm. Axling left Japan after more than fifty years of service in this country. Dr. and Mrs. Axling first arrived in Japan in 1901 as missionaries of the American Baptist Foreign Mission Society. Stationed first in Sendai, they later moved to Tokyo where Dr. Axling established the Misaki Kaikwan (Baptist Tabernacle), a pioneer institution in social service work. Because of his proficiency in the Japanese language, Dr. Axling soon became a preacher who was frequently called upon to fill pulpits, not only in his own denomination, but also in many other churches. Dr. Axling served for many years as English secretary of the National Christian Council. In that capacity he represented Japan at a number of international gatherings.

In 1941 when the relations between Japan and the United States were rapidly reaching a crisis, an effort was made by the Christians of Japan to ease the tension. A number of outstanding Christian leaders proceeded to the United States to meet with churchmen of America. This historic gathering convened in Riverside, California. Dr. Axling accompanied the group from Japan as interpreter and advisor. Upon the outbreak of the war Dr. and Mrs. Axling were interned, returning to the United States on the second exchange

ship in September, 1943.

After the end of the war Dr. and Mrs. Axling came to Japan again, this time as retired missionaries. Dr. Axling was engaged by the Kyodan as a special traveling evangelist. In this capacity he travelled all over Japan, preaching in the churches and enrolling many inquirers. Dr. Axling has no doubt spoken in more Japanese churches than any other missionary. Dr. Axling is the author of several books, the best known being his "Kagawa." When the impaired eye sight of Mrs. Axling made it necessary for them to return to the United States, signal honors were conferred upon them. Since the close of the war, many missionaries, especially those engaged in educational and social service work, have been honored by the Japan Government with special decorations. These have been of the fifth and fourth grade. Dr. Axling, however, was awarded the order of the second grade. Dr. Axling was also given the key to the city of Tokyo. This is the first time that such high honors have been bestowed upon a missionary.

### **DR. EMIL BRUNNER**

Dr. and Mrs. Emil Brunner arrived in Japan on October 1st, 1953 and left for Switzerland in July, 1955. Dr. Brunner was for thirty years professor of Christian Theology in the University of Zurich. He resigned this position to accept an appointment at the International Christian University. At this institution on three different occasions he taught the course in Introduction

to Christianity. This course is required of all candidates for a degree from the College of Liberal Arts. The third time this course was taught (April to July, 1955) the total registration was 250 students. In addition there were usually 50 to 100 auditors present. This has been by far the largest registration of any course taught at the University thus far. He also taught advanced courses in Justice and Freedom in Society, Christian Ethics and Modern Society, Existentialism and Western Social Theory and Ethics. He organized the faculty Bible class which met regularly at his home and proved to be a unifying force among scholars of varied backgrounds.

The willingness of Dr. Brunner to give up an important post in a great European university to come to Japan was a matter of constant inspiration to other faculty members. He organized informal extra curricular Bible classes for students. His chapel talks and sermons at the newly organized university church were deeply appreciated by faculty and students alike. In addition to his work at the University, Dr. Brunner was called upon for innumerable addresses at conferences, conventions and meetings of missionaries, pastors, educators, scholars and lay people. Everywhere large audiences were inspired by his messages. No Christian scholar, visiting Japan in recent years, has exerted so profound an influence. He remained longer than most. His reputation as an outstanding theologian assured him of a great hearing. The man himself was readily approachable. Although lecturing on pro-

found themes, his language was simple and easily understood. His occasional criticism of the church and his rather marked leaning towards the non-Church groups in Japan called forth sharp replies from the regular church leaders.

### SPECIAL ANNIVERSARIES

The year 1955 will see two of Japan's great organizations observing anniversaries. Officers of the Salvation Army arrived in Japan in 1895. There came to them at that time a young man who was destined to become one of the great Christians of Japan—Gumpei Yamamuro, who later became Territorial Commander. Of him some one has said "he won for the Army and for his own devotion the highest esteem from people from all walks of life, was decorated by the Emperor of Japan for social services to his countrymen and received the Order of the Founder from the General. More than fifty books and pamphlets and a constant stream of articles poured from his gifted pen." Among these books was his famous "The Common People's Gospel" which is still regarded as a masterpiece of simple, clear Christian teaching.

The Salvation Army suffered severely during the war. Some its officers were the first to be detained by the police. Recovery since the end of the war has been steady. The War Cry, the Young Soldier and the Officer Magazine are published again. Major Yamamuro, daughter of the great Commander, is actively engaged in retranslating and publishing many urgently needed

Salvation Army books. In addition to numerous centers of evangelical activity throughout the country, work is now being carried on in homes for children and young women, for men of the laboring class and in two large sanatoria for tubercular patients. More than sixty young Japanese have been trained and commissioned during the past several years.

1955 is the centennial year of the establishment of the World Council of Y.M.C.A.'s. The Young Men's Christian Association has formed an international bridge of friendship and understanding across every continent and most nations of the world. In August 1955, in Paris the first post-war world gathering of the Y.M.C.A.'s will be held. Forty two delegates will represent the Y.M.C.A.'s of Japan at this significant conclave. The theme of the centennial is "That they all may be one." The past decade has been one of marked advance for the Japanese Y.M.C.A. in the fields of physical education and recreation, camping, work with high schools youth through Hi-Y clubs, training of lay members to committee responsibilities, spiritual emphasis and the reconstruction of Y.M.C.A. facilities.

Nine camps under the direction of local Y.M.C.A.'s have been established and organized camping has become a part of the summer Y.M.C.A. program. Coupled with reconstruction and the broadening of Y.M.C.A. services to member and non-member groups, there has been an increase in the personal growth and development of individuals coming in contact with the Movement. Greater emphasis is being placed on the Y.M.C.A.

and its services as being complimentary to the Christian work being carried on in the Christian churches of Japan. The Y.M.C.A. affords the individual Christian the practical application in a host of activities the Christian principles taught by the Christian church.

### SPECIAL EVANGELISTIC EFFORTS

Dendo, evangelism, is a popular word among the Christians of Japan. Conscious of the fact that only a very small minority of the eighty eight million people have been reached by the Christian message, evangelism is bound to receive a special emphasis. Every Sunday night meeting is called an evangelistic service. At least once or twice a year special evangelistic meetings are arranged. Rural evangelism, occupational evangelism, visitation evangelism, student evangelism are widely used. Caravans, work camps, literature, audio-visual aids and many other methods are employed to carry the message to the unreached millions. One missionary hired a plane to scatter thousands of leaflets over a Kyushu city, an indication of things to come. Dr. Kagawa's evangelistic efforts are nationwide. Assistance in evangelism from abroad are welcomed and appreciated. During the past year there have been two such efforts which have achieved good results.

Dr. E. Stanley Jones made his fourth visit to Japan from February 1st, 1955, to the end of April. During that time Dr. Jones visited 72 cities and towns in all parts of Japan. Contrary to predictions this fourth

visit of Dr. Jones showed no diminishing of interest in his form of evangelism. The much publicized anti-American spirit was not in evidence. About 25,000 decisions were reported. These are divided into three groups; those who having heard the Christian message for the first time would like to learn more about it; those who have received some instruction in the past express a desire for baptism and those who have been Christians, but feel the need of deeper consecration.

A very unique effort has been introduced by Rev. Lawrence Lacour. Coming to Japan in 1950 with his Musical Crusade, he was impressed by the opportunity for evangelism and he devised the method of bringing a group of ministers and laymen to Japan for the summer months. The first such group arrived in the summer of 1954. More than twenty men and women composed this first delegation. They proceeded to Fukushima Prefecture and for two months these American ministers and laymen lived in Japanese style in ten small centers of the Prefecture.

With the help of interpreters they preached the Gospel to children and adults. In the small town of Yabuki, where a Negro pastor worked, fourteen were baptized at the end of the summer. The experiment of the first year was so successful that Mr. Lacour has brought a larger group for the summer of 1955. Thirty four men and women have arrived. The ten centers of Fukushima Prefecture will again be occupied and in addition four centers in the Tokyo area and eight in the west will be opened. The fact that these Amer-

ican men and women, accustomed to all the comforts of American life, are willing for the sake of the Kingdom to come to Japan in the heat of the summer and spend two months in surroundings which are entirely strange to them has made a deep impression on the Japanese.

### WORLD WIDE CONTACTS

Numerous Christian leaders from all parts of the world continue to come to Japan. Japanese Christians also are going abroad in ever increasing numbers. It is hoped that this exchange of visitors will foster a greater ecumenical spirit. Outstanding, of course, during this past year was the attendance of Japanese Christian leaders at the Second General Assembly of the World Council of Christian Churches, held at Evanston, Illinois, August 1-15. Only two of Japan's numerous denominations were entitled to representation at the Assembly; namely, the Kyodan and the Nippon Seikokwai (Anglican). Dr. Michio Kozaki, Rev. Shiro Murata and Rev. Shigehary Oishi represented the Kyodan and Prof. W. E. Kan the Anglican group. There were also four Japanese consultants, two youth consultants and eight accredited visitors. Among the consultants were Dr. Toyohiko Kagawa and Mr. Soichi Saito, secretary of the National Y.

According to reports the Japanese representatives were rather quiescent, but they did present the resolution of the Japanese Christians against the use of the hydrogen bomb. The introduction of this resolution

brought forth considerable publicity in the United States. Three representatives of the Home and Family Life committee of the National Christian Council attended the East Asia Christian Family Life conference in Manila; three delegates from the Audio-Visual Commissions represented Japan at the conference held at Bangkok; and several Japanese leaders have visited Okinawa and Formosa. Young Christian people have gone to the Philippines.

At the third Jubilee of the Bible Societies in London Secretary T. Miyakoda of the Japan Bible Society represented Japan. Secretary M. Fujita of the Church School Commission of the NCC attended the Assembly for the World Council of Christian Education. At that time he extended an invitation to hold the next world convention in Tokyo. Such a convention was held in Tokyo in 1920 and made a profound impression upon the entire Japanese nation. The date will be 1958.

An informal invitation to hold the next General Assembly of the World Council of Christian Churches in Japan was extended. It is doubtful, however, whether Japan would be able to entertain two world gatherings at practically the same time. The East Asia Consultation on Ecumenical Mission was held in Hong-kong, July 23-26, 1954. Rev. Kozo Kashiwai represented the Kyodan. This conference convened under the leadership of Dr. John Coventry Smith, Associate General Secretary of the Presbyterian Board. Dr. Smith outlined briefly the purpose of the conference in the following words "that the need for such a consultation had been underscored repeatedly during recent months by expressed requests from various lands for fraternal

workers to be sent from lands other than those traditionally on the sending end of the missionary program." Japanese Christians are making an increasingly large contribution in various ways to the development of the Christian movement in other lands, especially upon those in South Asia.

### THE COLLOQUIAL BIBLE

The years 1954 and 1955 will long be remembered in the history of the Christian movement in Japan as the time when the Bible was published in the colloquial of the Japanese language. The work of Bible translation and publication has had a long and honorable history in Japan. A convention of missionaries in 1872 appointed a committee to translate the New Testament. A permanent committee was set up in 1878 which revised the translations that had been made. The New Testament was completed in 1880 and on April 19th of that year proper celebrations were held. The complete Bible was not issued until 1888. Later four Japanese scholars and four missionaries prepared a revision of the New Testament which was in use from 1917, until 1954 when the colloquial New Testament was published.

The need for the revision of the Old Testament was also keenly felt. Just before the outbreak of the war a committee was appointed to revise the Old Testament. It worked through the period of the war, but when the war ended, the need for the revision was no longer felt so keenly. The revision prepared by the

committee was received by the Japan Bible Society but never published. Changes taking place in the Japanese language made imperative the translation of the Bible into the colloquial. In 1951 a committee was appointed to make this revision. The Japan Bible Society agreed to contribute one third of the necessary expenses and the British and Foreign Bible Society and the American Bible Society cooperated in providing the balance.

Six Japanese scholars were selected. For the Old Testament they were Rev. Senji Tsuru (chairman), Rev. Giichiro Tezuka and Rev. Toshio Endo. For the New Testament they were Rev. Takuo Matsumoto (chairman), Rev. Saigo Yamaya and Rev. Masashi Takahashi. Rev. Tsuru was the chairman of both committees. The revision of the New Testament in the colloquial was completed after three years and a celebration of this memorable event was held on April, 1954. The revision of the Old Testament required more time. It was completed in the fall of 1954, but the celebration of the historic completion of the revision of the whole Bible into the colloquial was not held until April 15, 1955. Before a large representative gathering in the Ginza church, the colloquial Bible was dedicated to the service of God and man. Representatives from the British and Foreign Bible Society, the American Bible Society and the Korean Bible Society were present and brought greetings. Messages of congratulation were read from the Prime Minister and the Minister of Education. Rev. Ken Muto, Moderator of

the Kyodan, and Mr. Genjiro Sugiyama, vice-chairman of the Lower House, expressed their felicitations over the revision of the Bible into the colloquial.

The significance of the publication of the colloquial Bible lies not only in the fact that the Bible has now been published in the language that everyone can understand, but also in the fact that for the first time in the history of Bible translation and revision in Japan the entire work has been accomplished by Japanese scholars. Since the end of the war 20,000,000 copies of the Bible have been circulated by the Japan Bible Society.

## VENTURES IN COOPERATION

### **The United Christian Missionary Society**

Because the nature of the United Christian Missionary Society participation in the Interboard Committee for Christian Work in Japan seemed to create a feeling of uncertainty and ambiguity as to whether this mission was operating on the same basis as other Boards, affiliated with the Interboard Committee, and because certain expensive and inefficient methods resulted from this ambiguous relationship, missionaries in Japan affiliated with the United Christian Missionary Society in April, 1953, requested that, "A Commission of Friendly Inquiry" be sent to Japan in the fall of 1954 from the Disciples of Christ to study existing conditions and trends within the Christian movement in Japan, including the relation of the Kyodan to other segments of the total life and work of Protestant Christianity; and to report in due time to the Board of

Trustees of the United Society with definite long range proposals regarding future policy and program of the Society for Japan.

In response to this request, a commission consisting of four leaders arrived in Japan on September 16th and remained until October 18th. Chairman of the commission was Dr. Riley B. Montgomery, President of the College of the Bible, Lexington, Kentucky. Dr. Virgil Sly, Executive Secretary of the Foreign Division of the United Society, was also a member of the commission. During their stay in Japan, members of this commission carried out an exhausting schedule of travel and conference. They travelled extensively to acquaint themselves with Japanese Christian activity within and without the United Church. The International Convention of the Disciples of Christ, meeting in Miami, Florida, October 25-31, 1954, immediately following the return of the commission to the United States, elected Dr. Montgomery, the chairman of the commission, to the office of President of the International Convention. This action was interpreted as a significant indication of support for a program of full cooperation in movements towards Christian union on the mission field and participation in joint administrative structures, such as the Interboard Committee.

In January, 1955, the actual decision was taken to enter fully into the Interboard Committee setup.

### **German Missions**

Before the war the work of German missionaries

was on a small scale. The Ost Asien Mission sent its first missionaries to Japan in 1885, but the mission never had a large development. Later the Liebenzeller Mission, which had carried on work in the South Sea islands, also began missionary work in Japan. Neither of these missions ever had more than three or four families.

After the war, however, a greater interest was manifested in Germany toward mission work in Japan. Nine mission societies which were interested in the missionary work in Japan organized what is called the Japan Committee of German Missions. This Committee functions under the larger organization, Deutscher Evangelischer Missions Tag, which is a union of all missionary societies in Germany.

At the time of the meeting of Missions Tag held on October 14, 1954 the matter of the relationship of the German missions working in Japan was discussed. This problem had been raised by Mr. Ebizawa, the General Secretary of the National Christian Council. Mr. Ebizawa had pointed out that the disunity among missionary organizations was having a deleterious effect on the cause of Christianity in Japan. In reply, the meeting on October 14th drew up a declaration. It stated that the mission of German Evangelical Christianity is to share the Christian faith with all the nations of the earth and especially the heritage of the Reformation. Then the declaration adds that it is the purpose of German missions to avoid disunion, and also to avoid the establishment of separate denomina-

tions. It is the hope of the German missions that their workers will identify themselves with existing churches, reserving the right however in regard to the choice of such churches.

Carrying out this declaration, the German East Asia Mission, located in Tokyo, is a part of the Kyodan. The five deaconesses of the German Deaconesses Motherhouse of Kaiserswerth are working with the Kyodan church in Hamamatsu. The Japan Committee of German Missions made formal application for associate membership in the National Christian Council of Japan. The annual meeting of the Council held in March 1955 unanimously approved this request.

### Lutheran Unity

Eleven Lutheran bodies working in Japan—Augustana Lutheran Mission, Evangelical Lutheran Church, Japan Evangelical Lutheran Church, Japan Lutheran Missionaries Association of the United Lutheran Church, Japan Mission of the Lutheran Church Missouri Synod, Japan Mission of the Suomi Synod, Lutheran Brethren Mission of Japan, Lutheran Evangelical Association of Finland, Lutheran Free Church of Norway, Norwegian Lutheran Mission and Norwegian Missionary Society—are working on a plan of unity. The following statements are taken from the report of the Committee on Lutheran Unity in Japan.

“At the close of the historic All Lutheran Free Conference session at Nara in October, 1953, of which the

subject of Lutheran unity in Japan was discussed, it was decided to form a Committee on Lutheran Unity in Japan composed of two members from each of the eleven groups working in Japan. Since then the entire committee of twenty two has met four times; a smaller committee made up of one from each group has met once; and two sub-committees of five members each, known as the Doctrinal Witness Committee and the Constitution Committee, have met frequently. The result of the total effort of these committees is two documents: The Doctrinal Witness which was adopted at Kobe on December 14, 1954 and the Organizational Recommendations which were adopted at Gifu on October 22 of the same year."

"These two documents express the Committee's conviction on what constitutes the fundamental basis upon which all the groups of Japanese Lutheranism can cooperate in a single Lutheran Church."

"The Committee now forwards these documents to all interested and concerned churches, bodies, and mission; welcoming reactions, but genuinely hoping that they will be officially approved, making possible the next step towards organic unity—the actual drawing up of the constitution of the new Lutheran Church in Japan."

In regard to the Doctrinal Witness the report states, "We, the officially delegated representatives of the respective Lutheran Churches and Mission Societies in Japan, present this Doctrinal Witness as a testimony to the unity in faith which the Holy Spirit has created

among us and as a proclamation of the distinctive message of Lutheranism. This declaration is not to be regarded as a complete exposition of Lutheran doctrine, as it found in Holy Scripture and set forth in the three Ecumenical Creeds, in the Catechism of Martin Luther and in the historic Lutheran Confessions to which Lutheranism subscribes. It is rather a simple witness to the fundamental Scriptural truths of Lutheranism." Here follow seven articles on Sola Scriptura, three on Sola Fide and five on Sola Cratia.

In regard to the organizational recommendations the report states:

"Whereas, The Constitution and By-laws for a future New Lutheran Church in Japan should properly be formulated by representatives from local congregations (One lay and one clergy representative from each district).

Whereas, the special agreements between the New Lutheran Church in Japan and the various Lutheran Churches and mission societies from abroad, cooperating in the work in Japan, should properly be drawn up by parties delegated with such responsibility, we propose that the following points be given due consideration in subsequent discussions and draftings." Then follows a general outline of the points, including such matters as the congregation, the district, the General Convention, the Mission, pastors and evangelists, the missionary and finance.

The Unity Committee convened in Kobe on April 19, 1955, to hear the reactions of the mission bodies on the

field and of representatives of the home Boards. Unresolved problems and differences of opinion were brought into the open. A considerable degree of agreement was reached and the good will and interest of the supporting boards was gratefully received. It was apparent however that concrete steps toward implementing actual organic unity will require a good deal more time and perseverance. It is to be noted that the representatives of the Wisconsin Synod who arrived in Japan in 1953 are not participating in these discussions of Lutheran Unity.

### INTERNATIONAL CHRISTIAN UNIVERSITY

International Christian University received its charter as a Liberal Arts College in March, 1953 and inducted its third freshman class on April 4th, 1955. The University has now five hundred students, ninety per cent of whom come from the upper 10% of the high school graduating classes. Thirty five per cent are women and approximately ten per cent are from abroad, including twenty two Chinese students, two Indian students, three Korean students, one from Thailand and fifteen from the United States. Approximately twenty eight of the entering freshmen class are Christian, ten per cent of last year's freshmen and sophomores have become members of the University Church, since it was organized and since the building was dedicated on May 9, 1954. Full time teachers for the current year number forty six. In addition there are twenty five part-time instructors and lectures. The

faculty members of the University have written more than two hundred books and a multitude of articles.

The University has about 50,000 books in its library, 26,000 from the Orient and 24,000 Western books. The library subscribes for 376 journals. A new library building is urgently needed by the summer of 1956.

The University church building was dedicated on May 9, 1954 with a church membership of one hundred ten. A dormitory for men, one for women and a cafeteria were opened on January 11, 1955. A ten apartment building for single faculty women and five homes for Japanese faculty members were completed in 1955, bringing the total facilities available on the campus for faculty members up to thirty.

Senior faculty members have been selected with the graduate objective of the University in mind. This means that the University has an outstanding faculty for the undergraduate program in the College of Liberal Arts. Regulations of the Ministry of Education do not permit application for a charter for graduate work until the four year undergraduate program is in full operation. Under the leadership of Dean Hidaka, director of the Institute of Educational Research and Service, a request for a charter is now being prepared and will be presented to the Department of Education. Since 1956 will be the first year after the completion of the full four year undergraduate program it is hoped to begin graduate instruction in the field of education that year.

The University is now in the fourth year of the six

year plan of development. The school is substantially on schedule in students, faculty, library, and the academic facilities. The University is behind schedule in the housing of students and faculty on the campus. Facilities for library, Science and Physical Education are serious needs for the immediate future.

### NEW INTEREST IN MEDICAL WORK

Since the end of the war there has been a growing interest in Christian circles in medical work. In pre-war days certain missions such as the Protestant Episcopal, the Seventh Day Adventists, the Salvation Army and the Omi Brotherhood carried on this kind of work. The Protestant Episcopal mission centered its medical work in St. Luke's International Center with 145 beds. Other medical work by this group was done at St. Barnabas' hospital, Osaka, Harunasu Sanatorium in Gumma Prefecture, New Life Sanatorium at Obuse Mura, Nagano Prefecture, and the Kujukuri Home in Chiba. The Seikokwai (Anglican) through its various institutions provides the accommodation of 620 beds.

In addition to the hospitals above there are a number of clinics which on a smaller scale minister to the sick. St. Luke's Hospital was taken over by the American Army when Japan surrendered. After ten years it will again revert to the original owners, the date of the return being the summer of 1955. The Salvation Army which had to close its hospital in Tokyo during the war is again planning to open this institution. The Seventh Day Adventists have added a large addition to

their hospital in Tokyo. New churches and missions have entered the medical field in recent years.

The Kyodan sponsors a hospital of 100 beds in Kinugasa, Yokosuka. This building was made available to the Kyodan by the American forces. In Kanda ward, Tokyo, the Kyodan established a clinic. Funds have been provided to change this clinic into a small hospital with 20 beds. Newcomers in the medical field are the Southern Baptist Convention and the Presbyterian Church in the U.S. The former group bought a large estate of 10,000 tsubo in the city of Kyoto. A large house and small houses on the ground have been remodelled into a modern hospital for 100 beds, 50 of which are in use now.

Plans are to have a School of Nursing later. The total cost of the project is \$210,000. Three Japanese doctors and four foreign doctors, three foreign nurses and nine Japanese nurses together with ten other members form the staff. The Southern Presbyterian hospital is located in the city of Osaka near the Osaka Station. Immediate plans call for a ferro-concrete building providing accommodations for 65 beds. This number will be increased to 120. The first unit will be opened in early 1956.

In connection with St. Luke's there is a training school for nurses which ranks as the best school of its kind in this country. Both the Southern Baptist and the Southern Presbyterian hospitals are also planning similar schools. This development in medical work is not so much a recognition of the inadequacy of the

Japanese ties, but rather a growing realization of the great contribution that can be made through the ministry of healing by Christian doctors and nurses.

### DEACONESS WORK IN JAPAN

Japanese Christian leaders, like Dr. Kozaki and Dr. T. Kagawa, visiting Germany, have been much impressed by the deaconess work in that country and have often expressed a desire that a similar program might be introduced into Japan. That hope has at last been realized. Dr. Paul Moeller of Germany visited Japan in 1949 and discussed with Japanese leaders the possibility of starting such work in this country. Returning to Germany Dr. Moeller presented this matter to German Mission and Deaconess Boards. At the same time the Japan Committee of German Missions came into being as a combined Board of several German missions.

The request of the Japan Christian leaders met with much favor and it was decided that some deaconesses of the Kaiserswerther Verband should go to Japan under auspices of the Japan Committee of German Missions. In 1952 Dr. Moeller came to Japan again to make the necessary arrangements for the arrival of the deaconesses. Among other contacts he got in touch with Mr. T. Hasegawa, a member of the Lower House of the Japanese Parliament, and a leader of the T B Sanatorium at Mikatabara near Hamamatsu, Shizuoka. Mr. Hasegawa thirty years ago had seen a film showing deaconess work in Germany and since then had earn-

estly hoped that similar work could be started in his sanatorium. He therefore offered his sanatorium as a base for this new beginning and promised all the help he could give.

In 1953 five deaconesses arrived from Germany and located at the sanatorium near Hamamatsu. Here they set up a Mutterhaus and in addition to studying the language, began the training of several girls who had volunteered for this kind of work. About the same time two German deaconesses were sent to Japan by the Evangelical United Brethren Church under the Interboard Committee. These deaconesses settled in Kazo, Saitama Prefecture, where the Aisenryo Orphanage is located. The clinic erected for the Orphanage is being used temporarily as the Mutterhaus.

During the first year four Japanese girls were received for training. That number has since been increased to ten. In the beginning of this movement in Japan, the National Christian Council gave supervision to this work, but since the question arises in regard to the position of the deaconess in the work of the church, the Kyodan has given official recognition to the deaconess program.

An especially appointed committee made a careful study of the deaconess program and recommended that a Deaconess Society be organized. This has been done with Dr. Kozaki as chairman. Each Mutterhaus maintains an independent organization, but the Deaconess Society serves as the channel of coordination and cooperation. It is believed that this well tried program

introduced from Germany will make a unique contribution to the Christian movement in Japan.

### JAPAN CHURCH WORLD SERVICE

The Japan Church World Service Committee in association with the National Christian Council of Japan is the agency which is endeavoring to carry on the task of relief and inter-church aid in Japan. Japan Church World Service is related to similar Christian Service Committees in more than 40 countries, coordinated by the division of Inter-Church Aid and Service to Refugees of the World Council of Churches in association with the International Missionary Council.

In addition to the voluntary services of ministers, laymen and missionaries who compose the 46 prefectural Church World Service Committees, the present staff of Japan Church World Service includes the chairman, Rev. Y. Manabe who is also chairman of the Social Problems Committee of the National Council, and Mr. Hallam C. Shorrocks, Jr., representative of Church World Service, U.S.A. and Japan representative, World Council of Churches Division of Inter-Church aid and Service to Refugees.

From the end of World War II until late in 1950, the original Church World Service operated in Japan as one of the Lara Agencies (Licensed Agencies for Relief in Asia). In the course of years the needs for relief in Japan decreased. The old Church World Service Committee was dissolved and became the Japan

International Christian Service Committee. It included more Japanese leaders and looked forward to serving more as integral part of the Japanese church than it had been able to do previously. Early in 1954 the Japan International Christian Service Committee changed its name to Japan Church World Service or "Nihon Koku-sai Kirisutokyo Hoshidan." In March, 1955, at the annual meeting of the National Christian Council Japan Church World Service was accepted as a full member of the Council. Thus Japan Church World Service operates in full association with the National Christian Council of Japan.

Japan Church World Service carries on the following activities:

- 1) Cooperates with the Japanese Ministry of Welfare and the National Council of Social Work in carrying on a ministry of relief and rehabilitation through Japanese Social Welfare institutions in each prefecture.

- 2) Japan Church Service is constantly on the alert ready to meet any emergency or catastrophe, such as fire, flood, earthquake or famine. As an example, after the disastrous fire which swept the Hokkaido city of Iwanai Japan Church World Service rushed 35 bales of heavy winter clothing, 10 cans of vitamins, 500 candles and 675 lbs. of powdered milk to the scene.

- 3) Japan Church World Service carries on a rehabilitation program for the physically handicapped, helping to make such persons self-respecting and self-supporting.

- 4) Japan Church World Service offers a scholar-

ship fund for training students who wish to devote their lives to full time Christian social work.

5) Japan Church World Service ministers to the relief and resettlement of refugees. The main group of refugees now being served are some 200 stateless European refugees who are trying to leave intolerable hardships and suffering in China to rejoin relatives and friends in Japan. Japan Church World Service arranges for Japanese visas, endeavors to find sponsors for those who have no friends, counsels with refugees and considers emergency assistance and cooperates with other volunteer agencies and governments in arranging for resettlement of stateless refugees in Japan to other countries.

6) The Japan Heifer Advisory Committee working through and under the Japan Church World Service committee carries on a program of rehabilitation and relief through making available food producing animals, such as heifers, bulls, goats, chickens, bees to local committees in particularly needy areas in Japan as well as in Korea and Hongkong.

7) As a new aspect of its work, Japan Church World Service has undertaken the need which overshadows all other needs in Japan, that of making some attempt at answering Japan's major problem of overpopulation. Japan's birth rate has decreased in recent years, but due to better medical and sanitary conditions the death rate also has decreased. It is estimated that between 1960 and 1970 Japan's present population of 88,000,000 will mount to 100,000,000. The resultant

social and economic pressure caused by such an increase in population may seriously threaten world peace. Mr. Shorrocks presented this matter to the Assembly of the World Council of Christian Churches at Evanston.

Kentaro Buma, the Associate Director of Japan Church World Service has been invited to visit South America in the interests of Japanese migration to that area. Mr. Buma left Japan on May 26, 1955 and went to Geneva to attend the meeting of the Interchurch Aid and Service to Refugees Consultation. From there he went to South America via New York. In South America Mr. Buma will consult with government officials, Japanese consular people and also with Japanese emigrants. It is hoped that as a result of this survey Mr. Buma will recommend a long range policy of service and resettlement aid by the churches to Japanese emigrants in South America through the World Council of Churches, Division of Inter-Church Aid and Service to Refugees.

### WORK FOR SERVICE MEN

The project of coordinated, off-base programming for service men in Japan began in 1952 and was the outgrowth of a sense of need by one dedicated Japanese Christian woman, Mrs. Ochimi Kubushiro of the Women's Christian Temperance Union.

In Kure there were large concentrations of troops with Australian, Canadian, British and American personnel. It was here that Mrs. Kubushiro together with

a group of Christian Japanese women of the WCTU began the Christian Friends' Home on March 14th, 1953. From this humble beginning the Home began to grow and prosper in its service to service men in that area by providing programs in Japanese culture, participation in community service projects, by shopping and guide service and by affording Christian fellowship.

Sensing the growing moral problem in each area of Japan where foreign military personnel were based, with accompanying bars and organized system of prostitution, the Social Problems Commission of the National Christian Council of Japan took action to create the Kichi Mondai (Base Problems) committee for the purpose of dealing actively with this problem. This committee wrote to the Christian churches in America, asking for financial assistance and personnel in order that a definite, comprehensive, coordinated program between the Japanese Christian Church and foreign military personnel might be established.

In response to this request Rev. and Mrs. Norman E. Koehler were appointed by the Presbyterian Board of Missions to go to Japan to organize and establish this kind of program. They arrived in Japan in September, 1954 and immediately began a survey of the military areas in this country, which included trips by train, boat and station wagon to sixteen military bases. Another response came in the form of a commission under the leadership of Maj. General Charles I. Carpenter, Chief of Air Force Chaplains. This commis-

sion was composed of a number of chaplains and church leaders from various denominations. They remained in Japan from September 14 to 25, 1954, visited air force bases throughout the country and held conferences with Japanese and missionary leaders.

Based on the report of this commission, the National Council of the Churches of Christ in America set up a Far East Committee for Servicemen, comprised of twelve members with power to organize and to act in all matters pertaining to this project. On January 19th, 1955, this Committee met and chose as their permanent name the Cooperative Committee for Ministry to Service Personnel in the Far East under the Foreign Division of the National Council of the Churches of Christ in America. The goals set for 1955 are the continuance of the work at Kure, the strengthening of the work at Tachikawa begun by several Kyodan pastors and the establishment of new centers at Sasebo, Sendai and Fukuoka. Rev. and Mrs. Koehler moved to Sasebo in the spring of 1955 and opened the center there. A smaller program has been started in Sendai and the groundwork for the opening of a center in Fukuoka has been laid. The Lutheran Church under the leadership of Rev. Edwin Sohn has established centers for service personnel in Tachikawa and Yokosuka.

### JAPANESE-AMERICAN ORPHANS

One serious problem growing out of the presence of large numbers of foreign military forces in Japan is the problem of the so-called Konketsuji of the

children of mixed parentage. In 1952 at the suggestion of the American consul in Tokyo a committee was organized to study the problem and to render such aid as could be provided. This committee took the name of the American Joint Committee for Assisting Japanese-American Orphans. The American Tokyo Chamber of Commerce, the Tokyo Union Church, the Interboard Committee and the American Legion, Tokyo Post, formed the original members of the Committee.

Since then many organizations, including Jewish and Roman Catholic group, have associated themselves with the committee. The purpose of the committee is to make a survey of the actual situation, to render assistance in the adoption of children whom their mothers are willing to give up and to help in the education of such as remain in Japan. One of the first tasks undertaken by the committee was to make a thorough study of the actual number of mixed blood children. Wild rumors were being circulated in regard to the number, some persons claiming that there were 200,000 of such children.

In close cooperation with the Japanese authorities, the committee was able to affirm that the number did not exceed 5,000. Of these approximately 4,500 reside with their mothers or other relatives and 500 live in 106 orphanages. The committee is now actively engaged in the second part of its program. The Tokyo Masonic bodies have placed at the disposal of the committee a room in their building free of charge.

A staff has been engaged and under the able leader-

ship of Mr. Llyod Graham adoptions by U.S. couples living in Japan are being arranged at an increasing rate and the flow of children to approved homes in the United States has begun. The Doris Duke Foundation has made available a grant of \$5,000 on the condition that a similar amount be raised in Japan. In agreement with International Social Service Miss Florence Boester, a trained worker in this field, has been sent to Japan. The coming of Miss Boester will greatly facilitate the program of the committee.

#### AUDIO-VISUAL EVANGELISM

No contrast between pre-war and post-war conditions in Japan, as far as the Christian movement is concerned, is more striking than the developments in the field of audio-visual aids. Roman Catholics and Protestants alike are using this new method on an increasing scale. The National Christian Council has as one of its departments a commission on audio-visual aids. The outstanding achievement of this Commission during the past year has been the erection of the Christian Audio-Visual Center, located on the compound of Aoyama Gakuin. This center was dedicated in January, 1955. The total outlay was \$75,000 which amount includes the cost of the building and equipment. Among the facilities are three recording studios, office and work space, meeting rooms, film library and equipment for producing A-V films. In the area of projected aids, the enlargement of the library of films and filmstrips was continued and branch libraries were opened in Hiro-

shima, Osaka and and Sendai. The film "The Good Soil" was produced and a committee was set up to study the coordination of A-V aids with church school curriculum.

In the field of radio Avaco produced six programs during most of the year, each of which was broadcast over two or more of twenty one private stations. Programs on private stations alone totalled 1,353 or approximately four hundred hours of broadcast. Most successful programs have been Bach's religious music with interpretation, a commentary program for women and narration of the biographies of great Christians. A poll of the private stations was made last year, 53 replying. Each of them was carrying from one to six Christian programs a week. The average was three per station. These figures exclude the program of Avaco as stated above.

The largest block is the Lutheran Hour on more than twenty five stations a week. Next is probably the "Voice of Prophecy" of the Seventy Day Adventists. In Kyushu a program sponsored by missionary B. C. Moore is reaching the people of the southern island. The Lutheran Hour has the largest response and follow-up with about 3000 taking their Bible course. In addition to these broadcasts over private stations, Avaco NHK Liaison Committee arranged more than seventy broadcasts over Network II of the government broadcasting corporation.

## OCCUPATIONAL EVANGELISM

The beginnings of the labor movement in Japan, as in most countries, came from a concern on the part of Christian men. It was in 1897 that unions of railway workers, printers and steel workers were begun, all started and led by Christians. Some years later Dr. Kagawa and men associated with him also gave leadership to the growing labor movement and held that leadership until labor was suppressed during the war. In 1913 and 1914 the National Christian Council of Japan did some work in factory evangelism and missionaries and Japanese leaders shared in this task.

Since the end of the war many factories and offices expressed an interest in Christianity. Laymen and pastors have been asked to teach Bible classes or answer questions at lunch periods and in after work periods. As a result the General Assembly of the Kyodan in 1950 appointed a Social Problems Study Commission and an Occupational Evangelism Committee. Further steps have been taken to the effect that there is now a committee or sub-committee in every district of the Kyodan. One pastor in Yokohama has resigned his church in order to devote his full time to the eighty or more groups in the offices and factories of the Tokyo area.

The establishment of churches in the coal mining area of Kyushu has been a special emphasis. The bringing together for fellowship and training of young Christians in the textile mills of Shikoku is worthy of

notice. Labor Gospel schools patterned after the Rural Gospel schools have been experimented with in Kyoto. In Tokyo there has been a continuous program extending over a period of several years of training classes for leaders of occupational evangelism.

Further stimulus was given to this movement by the coming to Japan in 1954 of Dr. and Mrs. Henry Jones, sent by the Presbyterian Board. Dr. Jones after graduating from McCormick Theological Seminary, spent twenty years or more in Church Neighborhood Houses In Workers' communities as a home missionary. Here he became acquainted with the labor movement and was convinced that the church must work move closely with it, if we are to be able to share the Christian faith with laboring people. Since 1947 Dr. and Mrs. Jones have been foreign missionaries in China and South America, charged with developing this program. In Japan Dr. Jones has been given a roving commission, not to be tied down to any one institution. By lectures and seminars at theological seminaries, by talks and discussions at pastors' training school, by expediting translations and by publishing materials for Bible study groups by enlisting the interest and support of other committees and groups, such as Avaco, NCC Literature Commission and Religious Education Committee, Dr. Jones and his co-worker hope to extend this program throughout Japan.

All this is to the good. Too long the church in Japan has confined its efforts to the student and more edu-

cated classes. Resent emphases upon rural and occupational evangelism, long stressed by Dr. Kagawa, are an indication that the church in Japan is finally being awakened to the need of these great classes. Unfortunately there are few Christian leaders who are trained to head up such a movement and it is safe to say that no theological seminary is at present prepared to train such leaders. Occupational evangelism is all right as far as it goes, but if we are to touch the powerful labor movement in Japan much more drastic steps must be taken..

### HOME VISITATION EVANGELISM

One of the movements in Japan which is quietly making a growing contribution to the development of the church is Home Visitation Evangelism. This method was first introduced by Dr. D. D. McConnell of the United States in 1949. One who caught the vision of this method, although certain changes had to be made to adapt it to the situation in Japan, was Rev. Ryukichi Yoshida. Rev. Yoshida, after graduating from the theological seminary at Oberlin, served as pastor of several churches before coming to the Reinanzaka Church, Tokyo, co-pastor with Dr. Kozaki. Five years ago Rev. Yoshida carefully trained five "volunteers", as home visitation workers are called in Japan. This number has grown to sixty two men and women. The volunteers follows a fairly rigid weekly schedule, spending much time in prayer, in study of the Bible and of the manual of work. He devotes from two to

five evenings a week to this work. As a result the Reinanzaka church has added an average of 101 new members annually.

More and more pastors are organizing local home visitation groups. Forty such groups are operating in the Tokyo area, 30 in Kyushu, 20 in Chugoku, 10 in Shikoku, 40 in the Kwansai area, 20 in Chubu, 5 in the Tohoku and 10 in Hokkaido. At least six of the Kyodan's fourteen districts have home evangelism visitation committees. The National Christian Council has organized a committee on Home Visitation Evangelism on which there are four members from the Kyodan, and two each from the Episcopal, Lutheran and Baptist churches. In 1953 a conference was held in Karuizawa with seventy attending. The next year at Gotemba the attendance was 150.

Future plans for this program are:

- 1) Rev. Yoshida will lecture and hold area workshop type conferences all over Japan as time and opportunity permit.

- 2) Rev. Yoshida and other members of the committee will endeavor to visit each local congregation which shows a willingness to try this program for the purpose of training, counselling and sharing of methods, materials and spiritual inspiration.

- 3) Publication of two magazines or news sheets, one in English to inform missionaries and English speaking people of the progress and plans of the movement and one in Japanese.

- 4) Annual conferences.

5) Annual conferences for missionaries in an endeavor to integrate home visitation plans and methods more and more into the missionary's outreach.

6) Training centers, beginning with one in Tokyo to which home visitation groups and their pastors from outlying areas can be invited to meet with and share the experience of a local trained group in action for inspiration, training and actual visitation with an experienced volunteer.

7) Assignment of a missionary coworker. Rev. Homer F. Yearick, a missionary of the E & R Board, has been assigned to serve in the Home Visitation Evangelism movement.

## THE CATHOLIC CHURCH IN JAPAN

### A Report Based on the Catholic Directory of Japan, 1955

The Hierarchic organization of the Catholic Church in Japan includes the Archdiocese of Tokyo, the Dioceses of Fukuoka, Kagoshima, Kyoto, Nagasaki, Osaka, Sapporo, Sendai and Yokohama, the Vicariate Apostolic of Hiroshima and the Prefectures Apostolic of Miyazaki, Nagoya, Niigata, Shikoku and Urawa. The Holy See is represented by an Internuncio in Tokyo.

Central organ of the Hierachy is the National Catholic Committee, also situated in Tokyo, which seeks to render such services to the various ecclesiastical divisions as the local groups cannot easily secure for themselves. In addition to a general Secretariate, the Committee comprises the following departments: Press,

Catholic Action, Education, Legal Affairs, Social Action, Charities, Employment, etc. Loosely attached to the Committee also are the national federations of Catholic Physicians, Catholic Students, the Young Christian Workers (Jocistes), Catholic Artists, a library for the blind, etc. These organizations, however, have their own central administration.

Lay Catholics numbered 193,724 on June 30, 1954, while catechumens still under instruction but not yet baptized numbered 24,863.

Included among the mission personnel in December, 1954, were 1,283 priests, 317 Brothers and 3,498 Sisters of whom 260 priests, 157 Brothers and 2,709 Sisters were Japanese while the others represented 35 foreign countries.

About 200 of the priests belong to the Diocesan clergy and are supported by their respective dioceses while the other priests along with all of the Brothers and Sisters belong to 38 Religious or Missionary Societies of men and 70 such Societies of women.

As of December 1, 1954, Japan had a total of 564 churches but of these, only 460 had resident priests.

For the training of the clergy, the Church has 7 Minor and 6 Major Seminaries. The Minor Seminary curriculum includes the regular Chugakko and Koto-gakko courses, while the Major Seminary Curriculum usually entails eight more years of Philosophy, Theology and various other scientific and cultural subjects of college and university grade. Enrollment in the Major Seminaries is approximately 360.

Other Catholic educational establishments include five universities (two of them co-educational), six Junior Colleges, 68 Kotogakko, 70 Chugakko, and 40 elementary schools with a total enrollment of about 60,000 students. Not included in these statistics are a score of special schools, e.g. a Junior College of Nursing, a Junior College of Music, seven schools for foreign children, two training schools for kindergarten teachers, etc. with a total enrollment of about 3,000 students (1414 for the foreign schools).

Included among the Catholic welfare works are two leprosaria with 176 patients, 15 hospitals with 1,120 beds, 11 tubercular sanatoria with 1,115 beds, 19 dispensaries without in-patient facilities, 12 old folks' homes which care for about 375 aged men and women, 14 hostels mostly for students and working girls with about 325 guests, approximately 50 orphanages caring for some, 5,600 orphans, about 60 day nurseries, etc.

Most of the educational and social welfare institutions are conducted by the various Missionary Societies.

The Catholic Church in Japan has only one national Catholic newspaper, published in Tokyo, but there are several diocesan monthlies and a large number of parish bulletins. Among the specialized magazines may be named *Shin Sekai*, a magazine for the Young Christian Workers, *Katorikku Kyoiku*, an educational monthly, *Seiki*, a general cultural magazine, *Monumenta Nipponica*, a multi-lingual quarterly devoted to Japanological studies, *Koe*, *Seibo no Kishi* etc. which

are of general Catholic interest.

### THE CENTENARY MOVEMENT

On May 2nd, 1859, before the actual opening of the ports of Japan, Rev. J. Liggins of the Protestant Episcopal Mission, landed in Nagasaki. Towards the end of the following month Rev. C. M. Williams of the same mission reached Japan. Before the close of the same year missionaries of the Presbyterian Church and of the Reformed Church in America joined the first two. In 1959 it will therefore be one hundred years since the opening of Protestant missions in Japan. Japanese Christians are planning to observe this anniversary in a large way.

Three years ago the National Christian Council of Japan appointed a committee to make plans for the centenary movement. Dr. T. Kagawa agreed to give two weeks out of every month for special evangelism. However, it soon became apparent that unless the different denominations cooperate, the largest success cannot be attained. The National Christian Council has hitherto been considered to be not an organization to carry on special projects, but merely a consultative body. At the annual meeting of the National Christian Council in March, 1955, it was agreed by the various constituent bodies that while each denomination would carry on a special centenary program there are certain areas which only a united approach can reach. A committee of twenty one, representing the different groups, was appointed. Mr. Akira Ebisawa,

who resigned as General Secretary of the Council, was asked to serve as secretary of the Centenary movement. The committee has made the following plans for 1955;

a) Evangelism. Under this section are included the E. Stanley Jones campaign; the Lacour Musical Evangelism Crusade; the Morris-Leavitt Audio-Visual evangelism, the Sherwood Eddy Youth Evangelism in the fall and Home Visitation.

b) Memorials. Under this section are included the compiling of a history of the Christian movement in Japan, both in Japanese and English; the collection of historical material and the preservation of historic places connected with the Christian movement and the production of a film and a picture album showing interesting phases of the work in Japan.

c) New Life Movement. This rather vague part of the program looks forward to cooperation with the Government's New Life Movement, promoting the Christian spirit in social welfare, social reform, industry and education.

While it is still too early to judge the effects of the Centenary movement one result is already apparent. It has awakened the church in Japan to the realization of the exceedingly slow progress of the Christian cause in this country. The Christian church in Japan has witnessed many movements of various kinds. One of the most effective was the Kingdom of God Movement. It produced outstanding results, but never once was there a spontaneous outpouring of the Spirit. It is to

be earnestly hoped that the Centenary Movement will pass beyond the mechanical planning by a committee to a mighty outpouring of spiritual power.

As has been intimated, one result of the Centenary Movement thus far has been to make the church in Japan conscious of the slowness of the progress of the Christian movement. At the same time there is a growing awareness that the church somehow has been unable to fill the spiritual vacuum which has existed in this land, especially since the end of the war. Following the close of the war, there was a marked movement in Japan towards the church. Meetings of all kinds were largely attended and large numbers were baptized. In the last year or two this interest has gradually tapered off.

Granted that this interest was fostered by the unusual conditions following defeat in the war, it still remains a matter of concern that the church was not able to hold this interest. Another fact is that in recent years many strange religious groups have arisen. Some of them count their followers by the millions. According to a Japanese scholar these religions offer to the people two things greatly desired. They emphasize healing of diseases and provide a fellowship. Granted that many of these groups represent a lower type of religion, they do indicate, however, that there is a spiritual longing on the part of many people, even though it may not be of the highest type.

Again the question arises why the church is not able to reach these masses. Japan is admittedly a dif-

ficult field. Dr. Kagawa, a keen observer of conditions, in a recent address lists eight outstanding difficulties. Space permits only a listing of the eight points; 1. Moral insanity; 2. atheistic materialism; 3. sexual secularism; 4. economic depression; 5. revolutionary communism; 6. comeback of militarism; 7. revival of paganism and 8. atheistic natural science. This is a formidable array of difficulties..

They remind one of Paul's comment on the situation in Ephesus "there are many adversaries." The recognition on the part of Paul that there are many adversaries did not cause him to leave the work. "I will stay in Ephesus." "For a wide door for effective work has opened to me." The Christian faith, prescribed in the beginning, long suspected as an alien faith unsuited to Japanese life and culture, subject to many bitter attacks by a fanatical nationalism, confronted by a deeply entrenched conservatism, has survived. It survived even the critical period of the war. The Christian faith in Japan, as has been abundantly demonstrated, has in it survival power.

A historical perspective is necessary in order to get a correct picture of the situation. A hundred years after all are but a short period as far as the Christian cause is concerned. In "The First Five Centuries of the Church" Dr. James Moffat wrote "To see the five centuries in their true perspective, it must be realized that they mean five hundred long years. During the first three Christian centuries the church is engaged for the most part in claiming and winning its right to

a footing in the empire; during the next two, it is starting to face fresh responsibilities and opportunities 'within the empire east and west.

The ordinary reader hardly realizes how long the achievement took, and how important it is for a knowledge of Christian message and mission to grasp the significance of the fact that the task did take so long." The century of Christian work in Japan! Like the church in the Roman empire it has been a time for claiming and winning its right to a footing in the land. In many ways this goal has been achieved. The church in Japan, increasingly aware of its responsibilities and opportunities, is entering upon a new era with confidence in its message and in the power of its Lord.

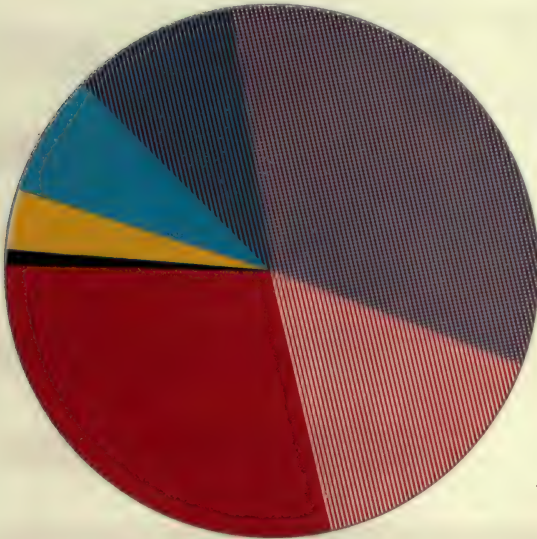

**SECTION II**  
**GRAPHS AND STATISTIC**

John H. Skillman

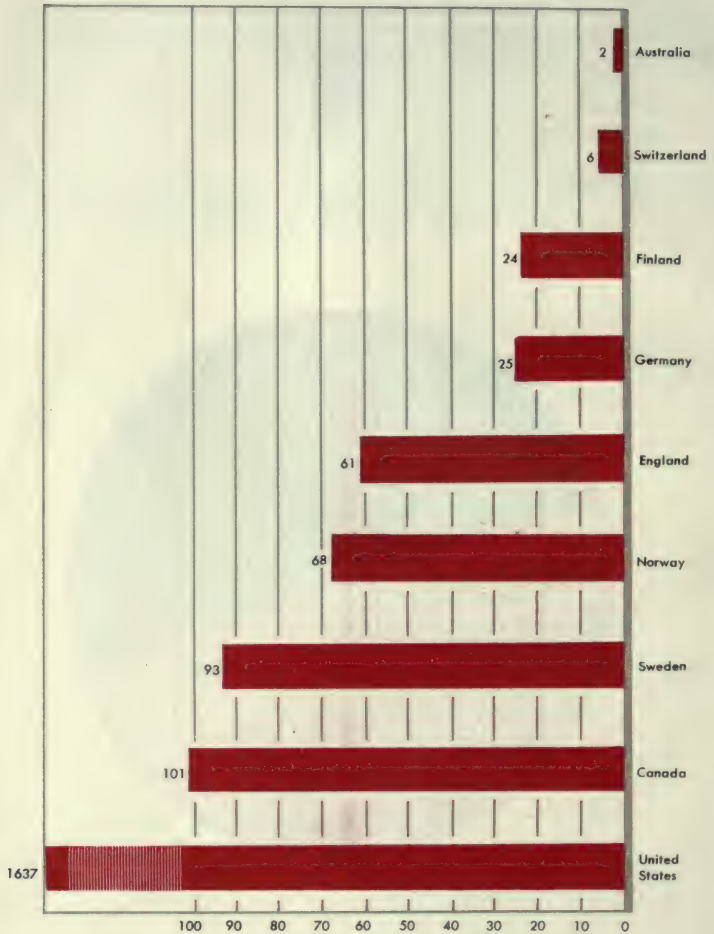

# RELIGIONS IN JAPAN

RELIGION	No. of People	Percent	Color in Graph
SHINTOISM	77,780,324	89.8	Red
BUDDHISM	47,714,876	55.1	Blue
CHRISTIANITY	485,399	0.56	Black
OTHER RELIGIONS	3,419,471	3.9	Yellow
TOTAL	129,400,070	149.36	
POPULATION	86,500,000	100.0	

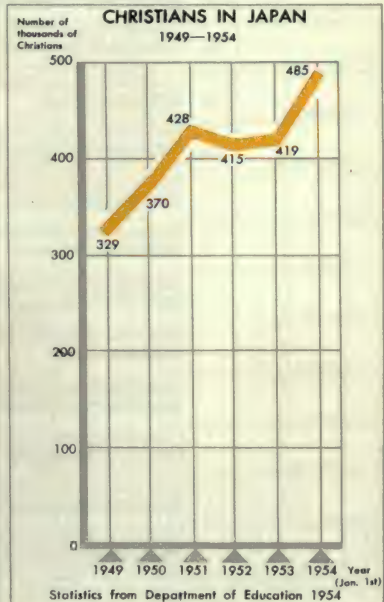

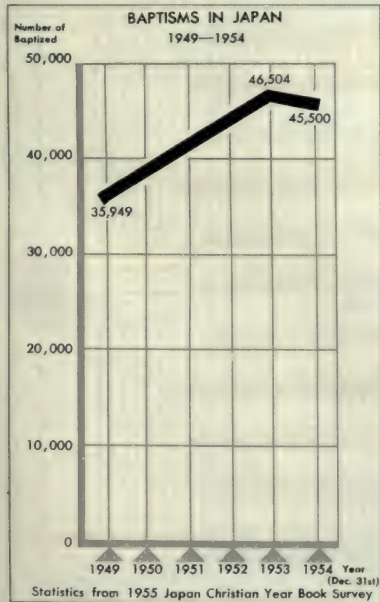

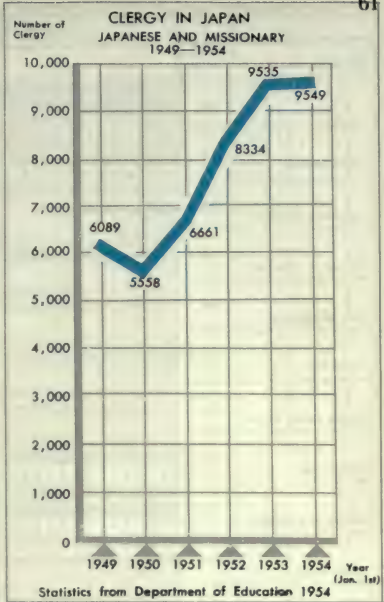

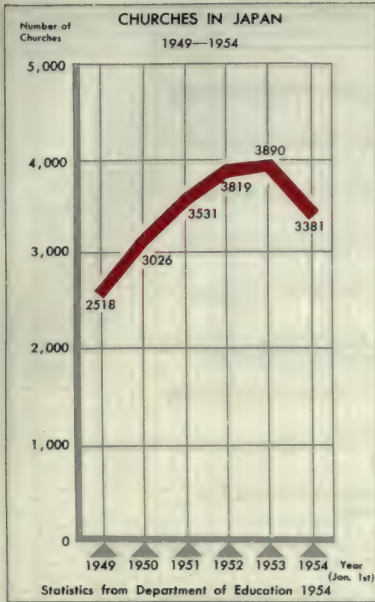

Because the total number of adherents claimed for Shinto coupled with the total number of adherents claimed for Buddhism exceeds the total population of Japan, we have chosen to divide arbitrarily the statistics given by three and to represent this block by a solid color on the chart. The remaining two-thirds are divided in shaded gradients between Buddhism and Shinto. It may be of interest to note that neither Buddhism or Shinto count people, as such, but count houses and multiply by three.

# NATIONALITIES OF MISSIONARIES IN JAPAN FOR THE YEAR 1954

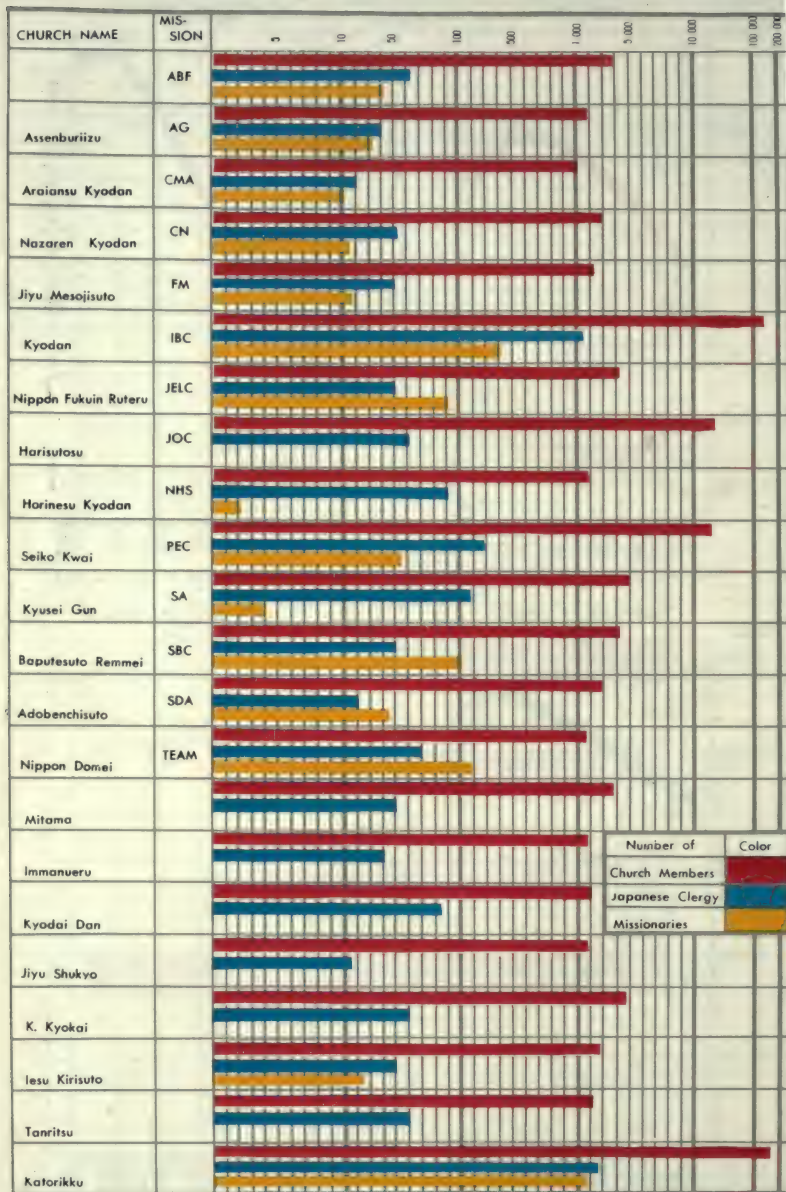

Statistics do not include Catholic Missionaries or Missionaries not under a Mission Board.

\* Statistics from 1950 and 1954 Christian Yearbooks (Krisito Kyo Nenshu). ★ Statistics from 1950 and 1954 Christian Yearbook Survey. ★ Statistics from 1955 Japan Christian Yearbook Survey. ★ Statistics from 1955 United Church of Christ Yearbook (Japan, Hiroko Kyodo Yearbook).  
 a. ABM—only 12 of these churches outside the Kyodo. b. AAMS—unordained pastors. c. Includes all missionaries—both ordained and unordained.  
 \* Since the statistics from the Kirairo Kyo Nenshu and the Nihon Kirairo Kyodo Nenshu do not indicate the city-town-village distribution for Organized Churches and Preaching Stations, we have arbitrarily estimated the total for city-town and village in these two categories, basing the estimate on the known statistics from other church groups. Also in cases where one figure including both men and women was given by churches for active members, we made an estimate in the total based upon the known statistics.

## PROTESTANT SCHOOLS

In the first column, following the name of the institution in romanized Japanese, is the English name, the address, the telephone number (if any), and other information according to the key. The second column provides a convenient list of school names, addresses, and names of persons responsible, in Chinese characters wherever this information was available.

Institutions marked by an asterisk (\*) have failed to supply new information. The information given is dependent either on the Japanese Christian Yearbook for 1954 (*Kirisutokyo Nenkan*) or on the 1954 JAPAN CHRISTIAN YEARBOOK.

### KEY

- [1] Name of president or head.
- [2] Number of students.
- [3] Number of faculty or staff.
- [4] Number of missionaries.
- [5] Date of establishment.

S Seminary or Bible School.

GD Graduate Department.

C College

JC Junior College

HS High School

MS Middle School

PS Primary School

K Kindergarten

— Information not supplied.

WC Women's College
